ANNOUNCEMENT.

FACULTY OF MEDICINE, Queen's College.

THE sixth Session of the Medical Faculty of the University of Queen's College will commence on the first Wednesday of November, 1859, and terminate the last week of April, 1860.

The following is the course of study required for the Degree of Doctor of Medicine:—

Anatomy and Physiology	} Each, two Courses of Six Months.
Practical Anatomy	
Principles and Practice of Surgery	
Theory and Practice of Medicine	
Materia Medica and Pharmacy ..	
Obstetrics and Diseases of Women and Children	
Chemistry	} Two Courses of three mo's each; or one of six months.
Medical Jurisprudence.. . . .	
Clinical Medicine	
Clinical Surgery	} Twelve mo's.
Hospital.. . . .	

The candidate for Graduation must have been at least **FOUR YEARS** engaged in the acquisition of professional knowledge; and, during that time, must have attended, for **THREE SESSIONS**, Lectures in some recognized Medical School.

ONE YEAR engaged in the study of Medicine, with a respectable medical practitioner, previous to the **THREE SESSIONS'** attendance on Lectures, will be equivalent to attending Lectures a fourth Session. One Session, at least, must have been passed in the University; during which time each of all the above-named Classes must have been attended.

The candidate will be required to give proof, previous to his examination, of his classical attainments*; and to present to the Faculty a Thesis, written by himself, on some medical subject.

He must be twenty-one years of age before receiving his Degree.

Certificates of attendance on Lectures will be received from incorporated Medical Schools in the British dominions; and, also, from others recognized by the British Colleges. Other certificates of attendance on Lectures will be admitted at the discretion of the Faculty.

*The Latin examination does not take place until the end of the curriculum, unless the Student desire it. The London Pharmacopeia, or Gregory's Conspectus, or, if the Student prefer, Cæsar's Commentaries, are the works examined in.

Five Lectures a-week, each of an hour's duration, will be delivered on each of the six months' courses.

Regular attendance on Lectures will be compulsory.

The Class Fees are \$12 for each Class of five Lectures a-week, and of six months' duration, payable at the commencement of the Session. The Fees of Classes of fewer Lectures, and of less duration, will be proportionately less. The Graduation Fee is \$30, and the annual Matriculation Fee \$2. Tickets must be registered with the Secretary of the Medical Faculty.

The Kingston General Hospital may be attended by the Students of Queen's College, during their whole period of study, on payment of £1 at the commencement of the course. Four members of the Medical Faculty will be the medical attendants of the Hospital; and will thus have it in their power to afford Clinical instruction.

By an Act of the Province, the bodies of the convicts of the Provincial Penitentiary are given up for anatomical purposes. This gives to Kingston very great advantages for the study of anatomy.

To meet the wants of the rapidly increasing number of Students, a spacious building has been erected, adjoining the University, which will afford every accommodation for study.

 The University of Queen's College being incorporated by Royal Charter, those possessing its Degree in Medicine will be entitled to their Provincial License, to practise Physic, Surgery, and Midwifery, by presenting their Degree to a District Judge, identifying themselves on oath as the persons named therein, and paying \$4—the fee now paid by British graduates in Medicine to the Provincial Secretary for a License to practise in the Province.

UNIVERSITY OF QUEEN'S COLLEGE,

KINGSTON, MAY, 1860.

The Board of Trustees of Queen's College again beg to lay before the Synod of the Presbyterian Church of Canada in connection with the Church of Scotland, a brief Annual Report, together with Statements of the income, expenditure, and financial position of the College. With the view of affording full information in regard to the Institution, the accounts have been prepared with great care by the Treasurer, to whom the Board feel under deep obligations for his disinterested and laborious services. In addition to shewing the expenditure of the University during the past year, the accounts will be found to contain under appropriate heads, statements in regard to the capitalized resources at the disposal of the Trustees, and also the income and expenditure of the Bursary Fund.

A considerable encrease in the total number of enrolled students again affords satisfactory evidence of advancement. At the close of the Session the Roll was as follows:

Faculty of Theology,	11
" Arts,	44
" Medicine,	90
—145.	

Of the Students in Arts, 26 have intimated their intention to enter the Divinity Hall, so that Queen's College is now training 37 young men for the Ministry of our Church.

At their last Annual Meeting the Board of Trustees, after long deliberation, and deeply impressed with the urgent necessity of obtaining a permanent Principal, decided upon sending a deputation to Scotland, consisting of the Rev. Dr. Barclay and Alex Morris, Esq. These gentlemen discharged their important and delicate mission with eminent success, and the Board have the high gratification of announcing as the result, that the Rev. Wm. Leitch, late of Monimail in Scotland, has accepted the Principalship of Queen's College, and will enter upon the duties of his office before the commencement of next Session. The testimony from every quarter of the Church of Scotland in favor of the Rev. W. Leitch's qualifications and eminent fitness for the office, has been so ample, so unanimous, and so cordially expressed, that the Board of Trustees cannot but regard this appointment as one likely to prove conducive to the best interests of the College; and from the active part which the Principal elect has taken in the business of the Church at home, the Trustees believe that this appointment will bring a valuable acquisition to the ranks of the Ministry in Canada.

During the past year the Board have had to lament the loss of two of their number, the Hon. James Crooks and John Mowat, Esq., who were among the earliest supporters of the College, their names being enrolled in the Royal Charter. The late Mr. Mowat has given practical proof of the great interest which he took in Queen's College, by a bequest in his will, endowing an annual competition Bursary. As the first instance of such commendable liberality, the Trustees cannot refrain from thus recording their sense of the value of the gift, and expressing

the hope that other members of our Church may follow so good an example.

The finances of the College have had the earnest attention of the Trustees during the past year, and the review has occasioned much anxiety. As the number of Students yearly increased, further accommodation and class-rooms were found necessary. This urgent want could only be supplied by a considerable sacrifice of capital, thereby seriously encroaching upon the annual revenue which could ill bear any diminution. The effort made a few years since to collect a Building Fund among the congregations of the Church has only realised one third of the sum required, and the Trustees again respectfully crave the aid of the Synod to meet the deficiency.

A welcome addition to the annual revenue of the College may this year be expected from the Provincial Government, who have increased the annual grant from \$3000 to \$5000. The Trustees however are strongly impressed with the necessity of securing for Queen's College a sure and liberal endowment by replacing the large sum taken from their capital in erecting much needed Buildings, and by every other means within their power.

During the past few months the management of the munificent endowment for the maintenance of University Education in Upper Canada, revised and regulated by Provincial Statute in 1853, has engaged public attention, and a Committee of the House of Assembly was appointed to investigate the matter. The funds at the disposal of the University of Toronto have long been ample, not only for the support of the University and of the College in connection therewith, but also to foster and aid other Collegiate Institutions in the western section of the Province. The Act of 1853 was undoubtedly framed with this latter object in view, and for several years the Trustees have waited in the hope, that their just and legal rights might be recognised by a suitable appropriation from the University Funds. Recent investigations, however, into the management of these Funds, have shewn how little prospect there was of any such recognition, and an excellent opportunity for such a step being afforded by the action of the House of Assembly in appointing the University Committee, the Executive Committee of the Board of Trustees addressed the petition, of which a copy is given herewith, to the Governor General and the two Houses of Parliament.

In the subject under consideration of the University Committee, Queen's College had a deep interest, and the Executive Committee therefore requested the Rev. Dr. Cook to watch the proceedings at Quebec, and to give necessary evidence on behalf of Queen's College. The result of these important investigations has not yet been made known, but in meantime the Trustees have done all in their power to advocate and maintain the claims of Queen's College to a share of the University Funds, without being in any way pledged as to future action, or to any surrender of their Chartered privileges.

The grateful acknowledgments of the Trustees are again due to the Colonial Committee of the Church of Scotland, for the annual grant of £300 stg., and especially for having this year increased their grant in aid of the Bursary Fund from £30 stg. to £50 stg.

At last meeting of Synod, a Committee was appointed on the Bursary Scheme, to watch over the same, and to report to next meeting of Synod. The Trustees earnestly trust that the action of this important Committee may result in placing the scheme upon a permanent and liberal footing, and would respectfully express the hope that an annual collection in aid may be requested from all the congregations of the Church.

Planted by the hand of Providence in a new and rising

whose population is rapidly increasing in numbers, and yearly spreading over vast districts but lately recovered from the forest, it cannot fail to be the earnest wish of every devoted member of our Church, that she may keep pace with the growing wants, and meet the requirements of her adherents, in every settlement where they may have found a home. The facts and statistics brought before each succeeding Synod but too surely prove that this degree of progress has not yet been reached, and often are large congregations, who would gladly welcome and support a minister, left to the fostering care of other denominations, or in some cases wholly destitute of the hallowed ordinances of religion. The poverty of early settlers in the backwoods, their distance from each other and from more favored congregations, may to some extent account for this deficiency, but at the same time it must with painful regret be admitted, that the number of young men consecrating themselves to the sacred calling of the ministry falls far short of the demand for their services, and also of what might reasonably be expected from an enlightened Christian community.

In a country enjoying that measure of prosperity and progress with which it has pleased God to bless our land, young men of ability and education cannot easily be attracted by mere worldly prospects held out in the Church, nor can they shut their eyes to the fact, that almost every other calling offers better prospects, in a pecuniary sense, for themselves and for their families. Were the attraction a merely pecuniary one, our College Halls might possibly be filled with students, but the piety and spiritual life of the Church could scarcely be expected to survive the charge. It is a higher and holier motive than this which must ever be the means, under the guiding hand of Providence, in leading young men of piety and promise to engage directly in their Master's service, and to devote their talents to the work of the ministry.

Deeply impressed with the growing wants of the College and the Church in this respect, and with the desirableness of endeavoring to bring stately and faithfully under the consideration of our Christian parents and pious young men the call to the work of the ministry; and the claims of the Church the Trustees venture respectfully to give the matter a place in their Report, trusting that the venerable Synod which is about to meet may take such action as in their wisdom shall seem expedient. The call to the Gospel ministry, information regarding the destitution of our land, the setting forth of those things which recommend the sacred calling to parents and youth, might well engage the attention of our ministers and congregations on a stated Sabbath in every year, and could not fail to receive respectful consideration. While thus using the means and pointing out the duty, special and earnest prayer might be offered up in public and in private, for the College and for those assembled within its walls, as well as for the outpouring of the Holy Spirit upon the rising generation of the Church, and that the Lord of the Harvest would send forth from among them labourers into this corner of his vineyard.

An occasion such as has been indicated above would indeed afford most fitting opportunity for uniting earnest prayer with liberal offerings in aid of the cause, for a general collection to supplement and increase the usefulness of the Bursary Scheme. Many young men of talent and promise are now restrained from entering upon a College course by anxiety in regard to their maintenance while so engaged, and until a suitable provision for all such can be held out, the services of not a few will be annually lost to the Church. To meet this deficiency a general collection is urgently needed.

In that striking passage of Scripture so often quoted for the encour-

agement of the Church, the duty of giving is made to precede the blessing promised, and may well serve for our example until the glorious promise be fulfilled : " Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of Hosts, if I will not open you the windows of Heaven, and pour you out a blessing, that there shall not be room enough to receive it."

All which is respectfully submitted,

JOHN PATON,
Secretary to the Board of Trustees of Queen's College.

THE UNIVERSITY FUND.

The following is a copy of the petition of the Executive Committee of the Board of Trustees of the University of Queen's College, presented to the Legislature:

To the Honorable the Legislative Assembly of Canada, in Provincial Parliament assembled.

THE PETITION OF THE EXECUTIVE COMMITTEE OF THE BOARD OF TRUSTEES OF THE UNIVERSITY OF QUEEN'S COLLEGE, HUMBLY SHEWETH:

That the Preamble of the Act of 1853, establishing the University of Toronto and University College, fully admits the desirableness of different University Colleges in different localities in a growing and widely extended country like Upper Canada, and the 54th Section of the same Act further recognizes the right of these Academical Institutions to a portion of the public endowment set apart for the University Education.

That there is no instance of any one College in Great Britain, or Ireland, being, as is practically the case with the University College of Toronto, endowed to a vast amount with Public Funds at the disposal of Parliament for University purposes, to the exclusion of all others, and such a system would be as injurious and unjust, as it would be unprecedented.

That your Petitioners, therefore, never imagined that the Government intended to endow one College only for the whole of Upper Canada; but on the contrary, were led, from the tenor of the Act itself above referred to, to form the expectation that after providing for the necessary expenses of the University, and for the maintenance of University College, Toronto, a considerable portion of the Endowment Fund for University purposes in Upper Canada would fall to be divided among the other University Colleges of the country, either with or without the condition of affiliation.

That the expectation thus naturally formed by your Petitioners has not been realized, and they have reason to believe that the extravagant expenditure of the University Fund renders it unlikely to be so, so long as things remain as they are at present.

That your Petitioners therefore are compelled to have recourse to your Honorable House, in order that a thorough investigation of the whole matter may take place, and that your Honorable House may review the Act of 1853, of which the practical working has been, while it contemplates one University altogether distinct from any one Collegiate Institution, to merge the University into the University College of Toronto, and while it contemplates several Colleges, to foster one College alone.

That your Petitioners are prepared to consider, in a candid and liberal spirit, any plan of settlement—either with or without affiliation of the different Colleges to one University for Upper Canada, which shall tend at the same time to maintain a wholesome rivalry between them, and more widely to diffuse the benefits of Academic instruction throughout the Province.

That, for the cause of a higher education, for its more general diffusion, as well as in justice to other Institutions, which as yet comparatively unaided, have each done as much for the advancement of learning as the enormously endowed University College of Toronto, or more—Your Petitioners apply to your Honorable House assured that, unless an Act of the Provincial Parliament is to be nullified and set at naught with impunity, you will take immediate and effectual measures for remedying the evils of which your Petitioners have just reason to complain, and for finally settling this important question in a wise and equitable manner.

And your Petitioners will ever pray.

Signed at Kingston, in name and by appointment of the Executive Committee of the Board of Trustees of the University of Queen's College, this ninth day of April, one thousand eight hundred and sixty.

JNO. HAMILTON,
Chairman.

ALMA MATER SOCIETY.

CONSTITUTION AND BY-LAWS.

CONSTITUTION.

I. FUNDAMENTAL PRINCIPLES.

1. This Society shall be called "The 'ALMA MATER SOCIETY' of the University of Queen's College, Kingston, C. W."
2. It shall consist of graduates and under-graduates of the University, and honorary members.
3. The objects of the Society shall be
 - (1). To preserve the attachment of the Alumni to the University, and their interest in it after their immediate connection with it has ceased ;
 - (2). To serve as a bond of union between the Students and Ex-Students of the various faculties ;
 - (3). To cultivate a literary and scientific taste amongst the Students.

- (4). To promote in general the interests of the University, and
- (5). To serve as a medium of communication between the Students and the governing bodies of the University.

II. MEMBERS.

1. Admission to a degree, or matriculation in the University, shall entitle an individual to be proposed for ordinary membership.
2. A candidate for *ordinary* membership may be elected at any meeting ; and, on payment of an initiation fee of one dollar, shall be considered a life member.
3. It shall be competent for the Society, at the Triennial Meeting, to elect honorary members,—the names of such proposed members having been submitted to the Society at the previous Annual Meeting.
4. The Principal and Professors of the University shall be deemed honorary members, *ex officio*.

III. OFFICERS.

1. The Officers of the Society shall be as follows :
 - (1). A PRESIDENT, who must be a graduate of

the University, and whose term of office shall be three years;

- (2.) SIX VICE-PRESIDENTS, to be elected annually, who shall take precedence according to the number of votes at the time of election, and of whom two must be non-residents of Kingston :
- (3). A RECORDING SECRETARY, a CORRESPONDING SECRETARY, a TREASURER and a LIBRARIAN, all of whom shall be residents of Kingston for the time being.

2. The afore-mentioned officers, together with six other members chosen at the annual meeting, shall constitute the Executive Committee of the Society.

IV. DUTIES OF OFFICERS.

1. It shall be the duty of the President *elect* to deliver an address at the Triennial Meeting, and to call extraordinary meetings of the Society on matters affecting the welfare of the University.
2. It shall be the duty of the Vice-Presidents to preside at all meetings for the transaction of business, taking precedence according to rank.
3. It shall be the duty of the Recording Secretary

to keep a record of the transactions of the Society ; to read the minutes of any previous meeting when called upon by the presiding officer to do so ; to give orders on the Treasurer for all debts payable by the Society, when so ordered by the Executive Committee ; and to read an Annual Report at the Annual Meeting of the Society.

4. It shall be the duty of the Corresponding Secretary to conduct the correspondence of the Society.
5. It shall be the duty of the Treasurer to take charge of the funds of the Society ; to receive contributions and fines ; to pay all bills that have been countersigned by the Secretary ; and, at the Annual Meeting, submit to the Society a statement of the accounts.
6. It shall be the duty of the Librarian to take charge of all the Books and Periodicals of the Society.
7. It shall be the duty of the Executive Committee to transact the business of the Society in general ; and of whom three members shall form a quorum.

V. MEETINGS.

1. There shall be ordinary meetings of the Society

held fortnightly in the Society's Rooms ; and shall be exclusively devoted to the cultivation of a literary and scientific taste among its members.

2. There shall be an Annual General Meeting on the first Wednesday of December, for the election of officers, &c., &c.
3. There shall be a Re-union of the members of the Society every *third* year, on the last Thursday of April.
4. The Executive Committee may call a special meeting for the transaction of business whenever they deem it proper ; or when requested in writing to do so by five members of the Society. Provided always, that six members of the Executive Committee shall form a quorum for the calling of a special meeting ; and that, at such meeting so called, there must be also six members of said Committee. Furthermore: in all cases due notice must be given, specifying the object or objects of such meeting.
5. All meetings of the Society shall be opened with prayer.

VI. MISCELLANEOUS.

1. Members of the Society wishing to avail them-

selves of the use of the Library, Reading Room, Gymnasium, &c., must pay into the Treasury, on or before the day of Annual Meeting, the sum of one half dollar each.

2. An address shall be delivered at each Annual Meeting by some member appointed at the previous Annual Meeting to do so.
3. All elections under this Constitution shall be by open vote.
4. No member shall be allowed to give more than one vote for each of the required officers; and, in every case, those having the highest number of votes shall be declared elected.
5. A candidate for ordinary membership shall be declared elected on show of a majority of hands: the election of an honorary member shall require a two-third vote.
6. Alterations in, and additions to the Constitution or By-Laws, may be made at the Annual General Meeting, if sustained by two-thirds of the members present; provided always: that notice of such proposed alteration or addition, be given at a preceding ordinary meeting.
7. A Visitor's Register shall be kept in the Read-

ing Room : no person shall be admitted as a visitor unless introduced by a member of the Society.

8. Contempt shown for the presiding Officer of the Society, or unruly conduct at any of its meetings, shall render the offender liable to a fine (not exceeding 5 shillings,) and frequent offences, to expulsion.
